

SAUGUS FIRE DEPARTMENT KEY BOX PROGRAM

Protection for You and Your Home!

Allow Emergency-Only Entrance to Your Home

The Saugus Fire Department along with the Saugus Fire Relief Association (S.F.R.A.) have initiated an **Over Door Key Keeper™** Program for residents of Saugus.

This specially designed key box is used to store an emergency home key, under lock safe conditions, for emergency personnel to access your home in the event of an accident, sudden illness or emergency call to your home. This allows emergency personnel to enter without having to force entry and do costly damage to your home.

Quickly installed in seconds, over most outside doors, the **Over Door Key Keeper™** is accessed by a master key entrusted to the Fire Department of Saugus. This program is most helpful and recommended for the elderly, handicapped, or anyone concerned about the well being of their home when they are away.

Over Door Key Keeper™

You Benefit

- No need to distribute personal home keys to anyone
- Saves critical time when emergency personal need to enter your home
- Protects elderly and handicapped in case of health or home emergency
- Allows emergency access when your traveling or away from home
- Eliminates destruction of property if emergency entrance is needed

**Call Now to Order Your
Open Door Key Keeper™!**
